EDUCATION

Savitribai Phule Pune University

Bachelor of Technology in Computer Science CGPA: 6.56/10

Pune, IN

Dec. 2021 – May 2025

Higher Secondary Education

Karmaveer Bhaurao Patil Mahavidyalaya Percentage: 81.33

Pandharpur, IN

June 2019 – July 2021

EXPERIENCE

Web Developer intern

Unified Mentor

July 2024 – August 2024

Remote, IN

- A lot of focus on the backend and frontend for dynamic responsive web platforms.
- Develop dynamic and interactive user interfaces with React.js and CSS, ensuring optimized performance and experience on any device.
- Optimized website performance by improving load times and reducing code redundancy.

Software Engineering Job Simulation

J.P. Morgan at Forge

Jan 2024 – Jan 2024

Remote, IN

- Set up a local dev environment by downloading the necessary files, tools and dependencies.
- Fixed broken files in the repository to make web application output correctly.
- Used J.P. Morgan Chase's open source library called Perspective to generate a live graph that displays a data feed in a clear and visually appealing way for traders to monitor.
- Collaborated in a virtual environment, demonstrating effective communication and time management skills.

PROJECTS

Chaotic Media Encryption System | HTML, CSS, JavaScript, React.JS

July 2024 – Present

- I'm working on the frontend of a Chaotic media encryption system
- Visualized GitHub data to show collaboration.
- Building the interactive and responsive UI on React.js with the ability to upload and manage encrypted media files, including real-time previews of the encryption status along with the prevailing conditions.
- Collaborate with a team to integrate the encryption system into larger security frameworks.

Generic company website | HTML, CSS, JavaScript, React.JS

March 2024 – May 2024

- The website was developed with good user interfaces and efficient backend in handling dynamic content.
- Developed full-stack website for a generic company that offers browsing through services offered, products, and information about the company.
- Service/Product Showcase: Highlights key offerings with descriptions and images

Restaurant Billing Systems | MERN Stack Technology

Dec 2023 – Feb 2024

- Has a user-friendly interface along with an efficient backend in dealing with dynamic content.
- A full-stack restaurant billing system that manages orders, generates bills, and tracks sales has been developed.
- The responsive interface and real-time data processing enable the restaurant staff to effectively manage customers' orders and payments.
